

INFLAMMATION RESEARCH

FACT SHEET

Volume: 12 issues per year + 2 supplements, in free sequence

Impact Factor 2015: 2,557

Online First: Quick publication time due to this service which provides access to the electronic version of peer-reviewed articles well before print publication. Online First articles are searchable and citeable by their DOI (Digital Object Identifier) and hence significantly reduce the time to publication.

Open Choice: This option offers authors, against payment of a basic fee, to give worldwide free access (Open Access) to their peer-reviewed and accepted article in electronic form via the internet database SpringerLink. The authors keep the copyright of the article in this case.

Abstracted/Indexed in all important databases:

Science Citation Index, Science Citation Index Expanded (SciSearch), Journal Citation Reports/Science Edition, Medline, SCOPUS, EMBASE, Chemical Abstracts Service (CAS), Google Scholar, EBSCO Discovery Service, CSA, CAB International, Academic OneFile, Academic Search, AGRICOLA, Biological Abstracts, BIOSIS, CAB Abstracts, Chimica, CSA Environmental Sciences, Current Contents/ Life Sciences, Elsevier Biobase, Gale, Global Health, Index to Scientific & Technical Proceedings, OCLC, SCImago, Summon by ProQuest

Editorial Manager: A fully web-based online manuscript submission and review system is available to authors. This system offers authors easy and straightforward login and submission procedures and the option to track the progress of the review process of manuscripts in real time.

Inflammation Portal: This internet portal provides free access to all abstract issues from the past inflammation conferences of the IRA since 2000 and the IAIS since 2005.

Furthermore, it offers links to many important inflammation societies, society announcements, links to important inflammation-related meetings, and further Springer Basel journals and book series of interest:
